Subject: Link to water quality data

Kate

I stumbled on this link. It has some pH data that I don't think was in the stuff I sent yesterday.

<http://www2.epa.gov/goldkingmine/water-quality-sampling-data-collected-after-2015-gold-king-mine-release>

I have a call into the Colorado Parks & Wildlife Office to see if I can track down the results of the fish tissue analysis.
